

2nd International Conference on Charged Lepton Flavor Violation

Charlottesville, USA

June 20-22, 2016

Hosted by the University of Virginia

Searches for charged lepton flavor violation are powerful probes of new physics. In three days of plenary talks this conference will examine the theoretical status of charged lepton flavor violation models, present recent experimental results along with their impact on the theoretical landscape, and discuss prospects for the coming round of experiments.

International Advisory Committee

| | | | |
|--------------------------|---------------------------|---------------------|-----------------------|
| Masaharu Aoki | Osaka University | Hai-Bo Li | IHEP Beijing |
| Alessandro Baldini | INFN Pisa | Ivan Logashenko | Budker Institute |
| Robert Bernstein (chair) | FNAL | Satoshi Mihara | KEK |
| Lorenzo Calibbi | ITP Beijing | James Miller | Boston University |
| E. Craig Dukes | University of Virginia | Stefano Miscetti | INFN Frascati |
| Francesco Grancagnolo | INFN Lecce | Toshinori Mori | University of Tokyo |
| Kiyoshi Hayasaka | Nagoya University | Andre Schöning | Heidelberg University |
| David Hitlin | Caltech | Giovanni Signorelli | INFN Pisa |
| Yoshitaka Kuno | Osaka University | Guy Wormser | LAL Orsay |
| Mark Lancaster | University College London | | |

Local Organizing Committee

E. Craig Dukes (chair), Craig Group, P. Q. Hung, Kent Paschke, Dinko Počanić
