

PHYS 1110: Fall 2024: Professor Dukes

These are directions on how to get set up with Learning Catalytics before your first-class session:

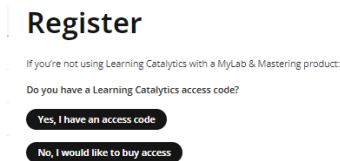

1. Go to [Learning Catalytics | Pearson](#)
2. Select Register for a course:

- i. Select I am a student and no, you are **NOT using this with a Mylab or Mastering product**

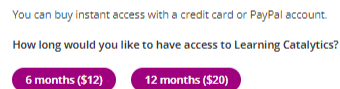

- i. Select which purchase decision you are using:

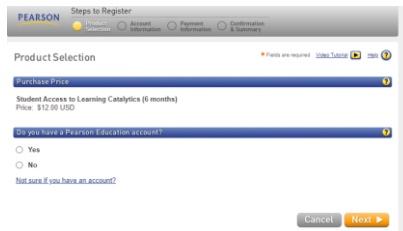

- i. If you are paying Pearson directly, these are your two options. Most likely you need to select just the 6-month access: **6 months is \$12.00, and 12 months is \$20.00.**

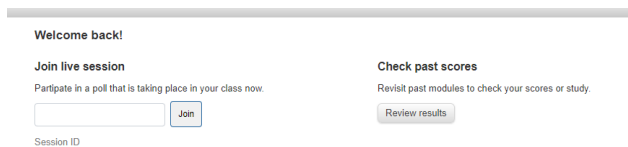

Students, buy access to Learning Catalytics

- i. You'll Accept the License Agreement
7. Use existing/previous account with Pearson or create a new one:

- i. **NOTE: You MUST use your UVA email address so your grades can be credited to you when registering.**
8. Then you will make your account purchase or put in your access code (from bookstore).
9. Finish your purchase by putting in your access code.
10. You'll now go back to login to Learning Catalytics which is where you will input your session ID when provided.

For any technical issues please go to 24/7 support at www.askpearsonsupport.com
